Digital Literacy Workshop Summary

Sample training report for taxonomy practice

Date: 24 October 2026

Purpose

A local learning hub organised a digital literacy workshop to help participants use email, online forms, and basic document tools.

Workshop delivery

The session included a demonstration, guided practice, and a question-and-answer period. Participants worked in pairs to complete a sample online form.

Feedback

Participants found the step-by-step demonstration useful. Some requested an additional session on file management and safe passwords.

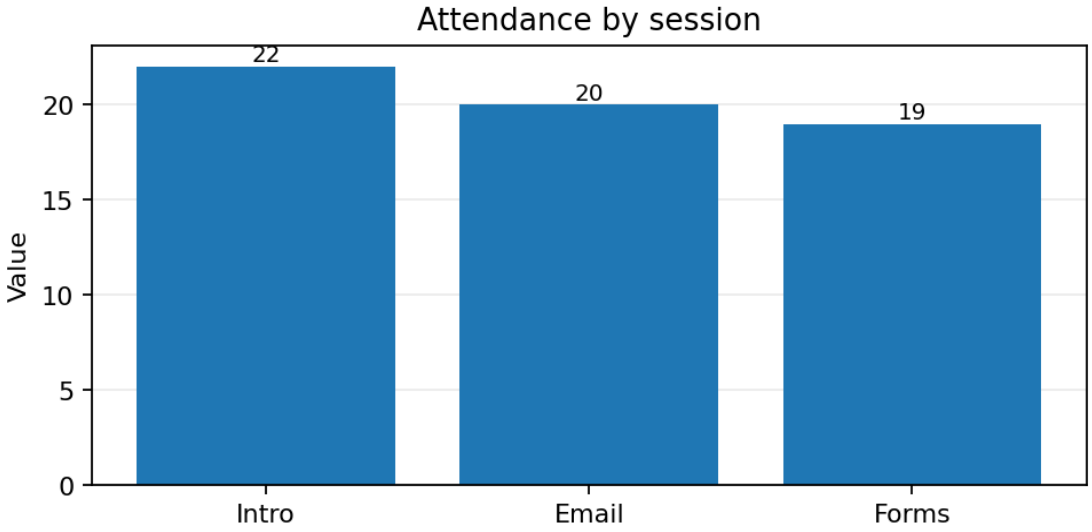

Recommended actions

- Prepare a follow-up session on file management.
- Provide a one-page practice guide.
- Repeat the feedback survey after the next workshop.
